TWO-YEAR-OLDS GIVE PROMISE OF RECORDS

Baby Racers of Royal Lineage Will Face Starter This Week

After a brief session of somnolence, due perhaps to a natural fear that the racing game was not up to the standard here this winter, the turf fans of the Bay counties are beginning to wake up and note the fact that the daily sport at the Oakland track is truly no spectator act, as it was during the first week.

During the past week the game has been noteworthy for its close finishes and excellent times. The racing crop of two-year-olds which are making their initial boy to the grand stand is a blue-blooded lot, many of them bred in the royal purple, and if there is any dependence to be placed in equine ancestry will be worthy descendants of their illustrious sires and dams in point of both speed and endurance. Racers of this age are racing for the first time, the boy mill, offspring of such royal mares as Brownie, Queen, Sultana, Puritan, Bayonet, etc., etc. The Fox and a host of others will go in the past trials of many a champion of noted layers of the species.

**BEARCATCHERS GET SPEEDY.**

The bearcat, which is displayed in the window of the San Leandro Bank of Bankers, is a large, well-groomed specimen which has been trained to run on the platform of a chair. The rest of his equipment consists of a small cage.

**TRIO OF CHAMPIONS.**

Three stars who have captured the race with Timonius, the three-year-old son of Lee Rose, entered in ahead of his own and last year's Gilber Rose, carried the star's colors to victory. Each of the trio, with the exception of Gilber Rose, was the champion juvenile mace of his season, and for an unfortunate accident this outfit would probably have received the award of the year.

**Morehouse Now Controls Three Banks.**

The acquiring of the San Leandro Savings Bank as an adjunct to the San Leandro Bank gives to President Morehouse, who, for the past twenty years has been a dominant factor in the more progressive commercial world, control of three of the largest banking institutions of the suburban district.

As chief executive of the San Leandro Bank he assumed complete personal charge of that institution in September, 1906, succeeding S. Huff, who, after grabbing the enterprise safely over the first shoals, died in that year.

Founded on May 15, 1892, the institution has grown with a steady and conservative progress which has gained for it a reputation with the foremost banks of this community. On February 23 of the year just past Morehouse, noting the opportunity for an up-to-date bank in the rapidly growing locality of Elmhurst opened the institution in that city which is now known as Elmhurst Bank, and which is being conducted as a branch of the San Leandro Bank and is under the guidance of the acting board of directors of the latter institution.

**PROMISING STRING.**

One of the most promising strings of two-year-olds on the local track is stabled in the Napa Valley, where it stands near the busy representatives of this stable took high rank among the best of the younger division, not only here, but upon the Metropolitan tracks of the east and Midwest. Carroll says that this year's crop is fully as promising as that of last season.

**Another strong horse at Elmhurst.**

Another strong horse at Elmhurst, one which has held his own for many seasons in the top division, is the young Racer Water, foal of the famous mare, Mrs. Alice, who, two years ago, was the winner of the Elmhurst Derby, and is the most famous and valuable in America. Both the Elmhurst and San Leandro banks are the chief stockholders in the Racer Water, and the latter is the first to make a winner of the winter meet, and will be ranked near the top of the two winning owners when the year is out.

From now on, strong, determined, steady and well-trained stallions will be the order of the day, and the rank near the top of the two winning owners when the year is out.

**SPEEDY SPRINTERS.**

Some of the fastest sprinters in the land are stabled at the track here, among the most prominent of which is Racer Water, foal of Mrs. Alice, who, two years ago, was the winner of the Elmhurst Derby, and is the most famous and valuable in America. Both the Elmhurst and San Leandro banks are the chief stockholders in the Racer Water, and the latter is the first to make a winner of the winter meet, and will be ranked near the top of the two winning owners when the year is out.

BERKELEY, Jan. 3.—He is to be a large and babbling incessantly the last full month before others can find him. The boy, though found yesterday in the police station here by his grieved-stricken father, the parent who is a well-to-do farmer near Woodland, has been diligent in looking for his boy in the list every day to tell him of the good fortune that came his way all the time he was ill and would return to her people in San Francisco.

The young man was taken into custody Friday in the complaint of persons living at 291 Pine Avenue, where George C. Parker, 21, had tried to shoot him down in some harm. At the police station he was identified by Mr. Hubbard of San Francisco, who immediately communicated with the father in Woodland. The latter had fled here and there was a salutation between parent and son.

**ESCAPED POLICE**

Young Grisby was the prisoner who escaped from Patrolman Leonard Saturday noon as the latter was taking him and another insatiable prisoner to a restaurant. Grisby made a dash for liberty and succeeded in eluding the police for about half an hour.

The almost heartbroken father is making arrangements to take his son back to Woodland where he will be safe, cared for by his parents. He said he would put the boy under the care of the best physician obtainable and hopes to have his mind restored so that he may enjoy the recently acquired legacy.

**EXHIBITS CAUSE OF CHANGE OF QUARTERS**

ALAMEDA Jan. 3.—On account of the large number of exhibits that are coming into the Chamber of Commerce, the organization has been obliged to remove into new and larger quarters and has taken the old Methodist church on Alameda Street, the building adjoining the old Methodist church.

The new quarters of the Chamber of Commerce are large and spacious. Doors will be open to the public after January 12th when removed will be altered and the house turned over.

It is not the practice of Klaw & Franger or other members of the great theatrical trust to take the public into their conference as to their reasons for displaying their stores or their general business. The reason for this is that they do not want the public to know that the company will be associated with them in San Francisco in a distaste.

The manager of the Madonnah Fletcher had made some advance sales to his Oakland upper box, but the cancellation of dates by Kendall's managers made it necessary to refund the money to purchasers.

**McCarthy and Spring Valley.**

Mayor-elect McCarthy has announced to the delegates to the San Francisco Labor Council that he is opposed to the issuance of \$35,000,000 bonds for the purchase of the plant and holdings of the Spring Valley Water Company, but favors the \$23,000,000 bond issue for the Lake Eleanor proposition. He regards it as an inopportune time for the city to assume an indebtedness of \$58,000,000 on top of the debt already created.

Prior to voting the \$2,020,000 bonds for the Geary street railroad, the city had authorized the debt of a little over \$22,000,000. Increase of the debt by \$60,000,000 would exhaust the city's borrowing capacity, which is \$82,000,000 on the basis of the assessment for the present year. Hence to purchase the Spring Valley plant and at the same time issue \$23,000,000 bonds to be used in bringing an additional water supply from the Sierra Nevada mountains would leave the city without the means to build a city hall and make other improvements urgently needed. Also an additional \$22,000,000 will be required in a few years for the completion of the Lake Eleanor project. Furthermore, the recent bond issue for new school buildings has proved to be inadequate, the cost of the buildings so far erected having greatly exceeded the estimates.

In addition to a city hall and more schoolhouses, the city is in sore need of better sewerage, street paving, crosswalks and other improvements which McCarthy pledged himself during his canvass to supply. It appears, therefore, that the water bond proposition places him between the devil and the deep sea. Before the submission of the Spring Valley purchase to the electorate Mayor McCarthy, then a candidate for office, had committed himself to the Lake Eleanor project. Realizing that it is impossible for San Francisco to get all things at once, he feels constrained to stand by his pledges and endorsements and refuse sanction to the Spring Valley purchase. It is not so much a question of public policy as one of immediate expediency. McCarthy is an ardent advocate of municipal ownership, and hence his announced opposition to the purchase of the Spring Valley plant is not a disapproval of the policy it involves. Being convinced that it would be exceedingly unwise for San Francisco to exhaust her borrowing capacity before the city is supplied with municipal buildings, adequate housing for the school children, paved streets, etc., he feels the necessity of choosing for the present between the purchase of Spring Valley and the Lake Eleanor project. Others may think the purchase of the existing plant, which is a revenue-producer, the wiser thing to do, but McCarthy realizes that if he proposed this he would promptly be charged with treachery to his pledges and to the Lake Eleanor scheme. He has preferred to be consistent.

**Oakland Harbor Improvement.**

Congressman Knowland's letter to Mayor Mott indicates a possibility that the Board of United States Army Engineers for Rivers and Harbors which has refused to approve the recommendations made by Lieutenant-Colonel Biddle for the further improvement of Oakland harbor may reconsider its action. It has deferred final action, at least, for three weeks to give the city authorities and the commercial bodies opportunity to present further data. It is up to us, therefore, to submit convincing proof that the extensive improvements Biddle has recommended are necessary. The showing can, no doubt, be made.

It is surprising and a great disappointment that the board should have hesitated about approving Colonel Biddle's report. The latter was based on a careful official survey of the harbor, a personal knowledge of the commercial conditions in San Francisco bay, of the plans of this municipality to improve its water front, for which it has already bonded itself, and the urgent necessity to begin to provide, at once, additional accommodations for commerce in anticipation of the opening of the Panama Canal which cannot be provided as quickly and cheaply elsewhere on the shores of the bay.

Oakland harbor, which now embraces the estuary of San Antonio and San Leandro bay, comprises the only part of San Francisco bay which is wholly protected from gales emanating from any quarter, with a shore line of approximately twenty miles in length which needs only the deepening of the channel to make every foot of its frontage susceptible to improvement for the use of commerce, where commerce can derive the greatest benefit owing to the fact that the ocean-going ships can be moored alongside the cars of four transcontinental railroads terminating here.

The improvement of this harbor is not by any means strictly a local affair. The whole continent traversed by these railroads is directly interested in it. It is rank folly for any one concerned to close his eyes to that fact. Oakland will be primarily benefited by the improvements recommended by Colonel Biddle, but the country at large will, also, be a beneficiary. That important fact seems to have been entirely overlooked by the Board of Engineers of Rivers and Harbors. If the deepening of Oakland harbor is delayed, the commerce of San Francisco bay will unquestionably be handicapped when the isthmian canal is opened and that fact cannot be reasonably ignored. It is imperative, therefore, that Biddle's recommendations should be approved and carried out.

Dr. Cook seems really to be making a dash for the pole this time.

**The Right Man for the Job.**

Washington dispatches say Senator Knute Nelson of Minnesota will head the committee that will be appointed to investigate the affairs of the General Land Office. A better selection could hardly be made. Senator Nelson is conspicuous for his independence and fairness, and possesses the confidence of all factions in Congress. His integrity and sincerity are above question. Any investigation made under his direction is certain to be honest and thorough and unpartisan. An honest and thorough investigation, not alone of the conduct of Secretary Ballinger, but of all others connected with the Land Office and the Forestry Bureau, is precisely what is needed to acquaint the public with the facts. So much has been said since the beginning of the so-called Ballinger-Pinchot controversy that the charges which have been so freely hurled about ought, in justice to those concerned as well as the public, to be sifted to the bottom. We can rely upon the sifting being thoroughly and impartially done if Senator Nelson heads the committee. He is not identified with the "insurgents" nor is he in complete accord with the dominant wing of the Republican majority. Rather, he stands between the "stand-patters" and the radicals, voting either way, as his conscience and judgment dictate. Moreover, he is a man of sound sense and discernment, and has had a long experience in public life that has ripened and strengthened his intellectual powers. He is ardently in sympathy with the policy of conservatism, and hence will not be in favor of applying whitewash to any derelict official, if any be found. If he is to be judged by his conduct in the past, he will do his duty with zeal, discretion and perfect fairness.

**Rich California Gold Mines.**

The Grass Valley Union reports that the North Star mine paid 23 per cent dividend on its capital stock last year. The North Star is one of the older quartz mines of the Grass Valley and Nevada City group, which embraces also the Empire, the property of W. B. Bourn and the first gold quartz mine to be operated in California. The latter has been worked almost continuously since 1851, and twelve or fifteen years ago new pay chutes were developed on the vein by Superintendent Starr and their continuity proved from the grass roots to the lowest levels then reached, which practically assured another century's life to the mine as a profit-gainer without carrying the workings to lower depths. These new discoveries in the Empire warranted the re-equipment of the mine with pumps and hoists of sufficient capacity to follow the vein to indefinite depths; the modernizing and enlargement of the reduction plant; the erection of granite residences, offices, laboratories and other surface buildings and the enclosure of the premises within a costly high stone wall. Since then the Empire's workings have been carried to the 3000-foot level. The property being held in private ownership, no publicity is given to the output; but it has the reputation in Grass Valley of yielding fabulous returns.

The North Star mine's real development was accomplished under the intelligent management of the late James D. Hague. It is a close corporation, but the annual reports to its few stockholders for over a decade have shown returns almost identical with those of the year just closed. Like that of the Empire, the vein is classed as a true fissure. The dip is so flat that although the lower workings are over a mile from the mouth of the incline, they are reached by a vertical shaft only 1650 in depth. In other words, there is nothing to prevent the following of the vein for two or three miles further with such up-to-date pumping and hoisting machinery as have been developed by mining engineering.

These two gold quartz mines in the Grass Valley district illustrate in a marked degree the perpetuity of California's gold-bearing veins and of the industry in the communities which they have created.

According to the Chico Enterprise, that prosperous city has contracted the progressive contagion which has taken a firm grip of all Northern and Central California communities within the past year, as the plans are being developed there for the holding of an election soon to authorize a bond issue of \$125,000 for municipal improvements.

Judge Gaynor, New York's new Mayor, says Boss Charles F. Murphy has called on him three times since election and advised him each time to select the best men he could find for appointment. Possibly the boss also intimated that Tammany Hall was the best place to look for good men. Apparently Judge Gaynor construed Murphy's suggestions that way.

Toward the end of this month a trainload of Los Angeles boosters contemplate paying a visit to the bay cities as a return compliment to the Oakland and San Francisco boosters who visited the metropolis of the southern counties last year and to renew the friendly relations between the northern and southern parts of the State. Of course the Los Angeles boosters will get a hearty welcome when they come to Oakland. Our interests in no sense clash with theirs. The two cities have some interests in common, for one cannot prosper without the other deriving benefit therefrom, although nearly five hundred miles apart, and when the big cities are prosperous the whole State is also a beneficiary.

**'La Titcomb' Is Bright Star Of Orpheum's Big 'Road Show'**

LA TITCOMB, Oakland girl and beauty show prize winner, who is big feature at the Orpheum this week.

Score another hit for the Orpheum Road

Show. Just where Martin Beck gets all these spectacular acts from, which each year he selects on a tour of the country under the title of "Orpheum's Road Show," is a mystery. There is no telling how he comes up with them, but the solution of the mystery is enough that annually it is big Orpheum Road Show comes to Oakland and the public rejoices. Their rapid fire whirls, their old comedy sketches, their singing and dancing and their whirling cut-ups.

**FOR THE CHILDREN.**

For the children and for the grown-ups as well, there is "Morgan Shively's big band of trained monkeys who give a performance called 'A Night in a Monkey House.' Trained monkeys who go through a series of acrobatic stunts, monkeys who conduct and play instruments in the orchestra; monkeys who do strong arm stunts, monkeys who go through all kinds of acrobatic feats, monkeys who sing and dance, monkeys who make fun of themselves and the audience in rows of laughter. There are ventriloquists, pianists, dramatic stars, acrobats, the famous "A Bit of Old Chelsea." This is the best place for the highest class is full of such sentiments as is rapidly written and splendidly played.

For uproarious fun Michelle and Higgins probably will give the big place a good entertainment of Orpheum's shows. This duo creates a great gaiety with

their rapid fire whirls, their old comedy sketches, their singing and dancing and their whirling cut-ups.

**BEAUTY IS STAR.**

La Titcomb, singer on horseback, must be regarded as the lead in the road show.

She is an American girl from Oklahoma, maiden by the way—who recently won the prize in an international beauty contest in Paris. She is a bewitching woman, decorates the Ring Show, and the reception stars, has a place on its bill. There are trained animals who do phenomenally clever feats, one of them being to give a program entitled "A Night in a Monkey House." There are comedians, acrobats, clowns and funny that keep the audience in fits of laughter. There are ventriloquists, pianists, dramatic stars, acrobats, the famous "A Bit of Old Chelsea." ## INDOOR REVELS OF SWISS WINTER SEASON

"A ballroom gymkhana," writes our artist, "comes well as a little variety to the big list of balls and social 'Benedict races'." In this each lady drives tandem two blindfold gentlemen and tortoise replace posts. To steer successfully a couple even of the most docile men round bottles placed at intervals along a ballroom floor is easier said than done. There are, of course, no word of mouth directions, and the bottles suffer accordingly."

MRS. EDWARD ENGLEBRIGHT (nee Miss Alice Naylor), who has been spending the holidays with her parents, Mr. and Mrs. Charles E. Naylor.

held in the parlors of the V. W. C. A. corner Castro and Dearborn streets.

The union will continue meeting on the first and third Monday at the V. W. C. A. parlors at Dearborn.

### COSMOS CLUB MEETS.

Mr. and Mrs. Edward W. Englebright (neé Miss Naylor) who have been spending the holidays with Mrs. Englebright's parents, Mr. and Mrs. Charles E. Naylor, in Alameda, have returned to their home in Los Angeles.

Mrs. Englebright was the recipient of much social attention during her brief visit to her former home as she was one of the most popular girls in the younger set and her friends make her visits to her parents' home the occasion for entertaining.

### RECEPTION SUNDAY.

Mr. and Mrs. S. Goodman will give a reception on Sunday afternoon, January 6, from 2 to 5, at their home, 1350 Brush street, Oakland.

### PETERSON-LEBROKE WEDDING.

A pretty home wedding of Christmas day was that at which Miss Aurora Lebroke became the bride of P. O. Peterson.

The ceremony was solemnized at the home of the groom's brother, Ross Peterson, 1122 East Twenty-fourth street, Ross, Mr. A. Christensen of the Lutheran church officiating.

The bride and groom are from Sparks, Nevada, which place will be their home after their honeymoon at Pacific Grove, the childhood home of the bride.

The bride was given into the keeping of her husband by Ross Peterson. She was attended by her sister, Miss Alice Lebroke, as maid of honor and the groom was attended by Andrew Kolstad.

A pretty feature of the service was the singing by Mrs. Hart, a friend of the contracting parties, of "Oh, Promise Me," just before the ceremony.

### CLUB DANCE.

The "P" Club will hold the third of the regular season's dances next Friday evening at Dell Hall.

### TOWN AND GOWN CLUB.

## Society Has Grown to Be Dancing Mad

Though Isadora Duncan, when she sailed from New York the other day after a brief dancing tour, expressed herself as bitterly disappointed at the way in which her art had been received, there are abundant evidences that dancing is becoming a regular craze in New York. In the Colony Club, where a series of classes has been inaugurated, the pupils are so numerous that difficulty is being found in making suitable arrangements for them. Mrs. Langdon Geer, who was Miss Dorothy Roosevelt is one of the leaders in the new pastime. She was one of the first to take up dancing seriously, and has been practicing it for more than two years, with the result that she is as proficient as many a star. Mrs. Adams Breckin, Miss Morgan and Mrs. Alexander are others who have attained a marked degree of skill, and their imitators are so many that they are dancing classes for almost every hour of the day. The regulation dress for classes is a skirt of soft satin, cut to the knee and accordion-plated, worn over ordinary bloomers, with a lace blouse cut low in the neck, silk stockings and regular dancing shoes to complete the costume.

A little bit of lace that they have on their bodies everywhere, Who give for nothing, they can spare Such a lavish hand, And the girls do it to bring Their hearts into their eyes.

Some little inexpensive thing, Some other gossips.

A little bit of lace that they have on their bodies everywhere,

They're all in fashion, and they can't afford to be left out.

They'll do it to bring Their hearts into their eyes.

They'll do it to bring Their hearts into their eyes.

The simplest things will do.

## MAYOR GAYNOR FILLS RICH JOBS

### Takes Opportunity to Laud the Virtues of Tammany Chief

NEW YORK, Jan. 3.—Mayor Gaynor gave out to-night his list of appointments, and as far as he has been able to make himself at ease in the city, he has done so with Charles Murphy, leader of Tammany Hall. The letter of T. W.

I feel that there is one great act of justice which I shall do. I was nominated without even a suggestion being made as to what I should do as Mayor or Senator. Charles T. Murphy has called me three times this time to tell me to name the best men to fill the offices. There were five things I did not

and kept saying to him, "I am not the man for the job." I told him that I was not the man for the job, and he said, "I know you are not the man for the job, but you are the man for the job without any suggestion being made as to what you should do."

He said, "I know you are not the man for the job, but you are the man for the job without any suggestion being made as to what you should do."

Trip to Mountains Expected to Add Stamina and Strength With the Work Jeff Has Already Done—Wolgast-Nelson Wrangle Goes On

By EDDIE SMITH

**W**ITH the holidays over and the year that is to bring the all time fairly opened, the fans are beginning to become more than ever enthusiastic Jeffries' chances of beating Jack Johnson. Fact is, the fans are so interested in the big fellow that his every move is being watched with the keenest interest and at least indication of loss of condition or regaining of condition is noted.

Yesterday Jeffries announced that at the conclusion of his theatrical tour, which is to end the 13th of this month, he will go to his home at Los Angeles and take a rest prior to going to the mountains and then put in four months at the training camp.

From the very beginning those who know Jeffries best have maintained active training and in varying their forecasts as to the manner in which his big fellow is doing just the very thing that the fans feel that the men interested in the future of the sport will keep this in mind, personally, I like the game.

**WILL NOT OVERTRAIN.**

To me the one that Jeffries made that stands out above all others for real common sense is that he will endeavor to keep from overtraining. This overtraining thing is nothing new to Jeffries and it will require a great deal of argument on the part of his training staff to keep the giant from repeating the very thing that several times sent him to the ring in none too good condition.

The work so far done by Jeffries has been reducing exercises, such as sprints on the road, jumping rope and stretching the leg. The big fellow has done well of the upholding exercises planned for him and for that reason he is not the perfection of endurance and strength which he expects to be when he steps into the ring with John Arthur Johnson.

The first step in that direction will be the trip to the mountains and there the big fellow will get close to nature, and with its long tramps in quest of game and his continual outdoor life, should come away with a world of strength and lasting power.

To be with Jeffries in the mountains is a thing of the past for the ordinary man. Jeffries is the most persistent mountain climber and hunter for game that this State boasts and the manner in which he will leave camp after an early hour in the morning and wander about all day without a mouthful of food is simply wonderful.

Jeffries starts out and has his mind so strongly centered on the game that he really forgets all about where he is going and how far he has left the camp behind, then when the time comes to return he generally finds himself so far away that it takes him until dark to get back.

**TRIP SHOULD TELL TALE.**

The writer has seen many a man start out with the big fellow on a hunt and come back before half the distance had been covered. The mountain trip will tell the world as to whether or not the big man is going to get into condition again, for if he is to retain the condition to battle with such an mighty opponent as Jack Johnson he will have to show it on his return from the hunt.

The weight reducing is all bush, insofar as the actual condition of Jeffries is concerned and there are a number of his most ardent admirers who would be more strongly impressed with his chances for condition if he left for the hunting trip with plenty of waste flesh to work off.

One more very important thing was announced by the big fellow, that comes as no surprise. He says that he will have to give up the buggies and best sporting partners that he can secure, and will have to depend with pneumatic pads in such a manner that he will be able to shag away with all his force behind him.

**WILL DO HARD BOXING.**

For my part I would not care to take the position no matter how flattering financially, the offer might be. But there are any number of men in the country who would jump at the chance to work with Jeffries and he will no doubt be able to get all the boxing he needs.

If Jeffries sticks to this plan it will be the first time in all his training that he has bowed to anyone to anything and he will be the first time that he has ever crowded a sporting partner. With four months of the continual slugging in his training camp Jeffries may round into condition without taking on a fight or so prior to the big event, although the general impression of the knowing fan is to the effect that Jeffries would be the better by beating a few second rate pugs prior to the John-son argument.

Some six months ago the writer said that the history of athletics failed to reveal one man who has ever made the heroic efforts to regain a lost condition than Jeffries has, and the more we are impressed with the idea that he may break all past performance as to coming back to a former condition after such a long lay off.

**WOLGSTAD-NELSON WRANGLE.**

The Ad. Wolgast-Battling Nelson keeps pace with the big fight in the matter of newspaper prominence but that is as near to being matched as the young men come. Two weeks have gone by since the first announcement that Nelson and Wolgast had been matched and as yet there has been nothing definite come out of their arguments.

Nelson still sticks to his plan to offer him \$12,000 for his end of the match and Wolgast offers \$10,000. Tom McCahey, whose offer means more money to the challenger, has arranged a special program for the occasion.

Several musical numbers will be contributed to the entertainment by local bands and motion pictures will round out the bill.

The program will be as follows:

Plane and violin duet, Cecilia Mattos and Linnus Vierla, song "Nobis Child," by Zelma Vierla; Miss Elizabeth Jones, Oakland; Illustrated song, Lizzie and Ed Davis; accompanist, Mrs. Ethel Clark.

### PLAN TO REACH THE SOUTH POLE IN BALLOON

**P**RINCESTON, Jan. 3.—Messrs. Matteson and Volpert, both officers of the Russian army, have purchased two dirigible balloons with capacities of 1400 and 2000 cubic meters with which they will undertake an expedition to the South Pole. The explorers plan to convey the apparatus by air south and the top will permit and them proceed in the balloons themselves. They will keep in touch with their ship of supplies, by means of wireless telegraphy.

**DROWNING WHILE SKATING.**

PHILADELPHIA, Jan. 3.—James Klug, 15, was drowning while skating at Lake Minnetonka, Minn., when he slipped on the superstructure of the Five Points company. He came here December 1st from the lake and was admitted to the hospital and American League Club, where he had been declining to eat and had been told to go to bed. He died Saturday night at 11 P.M. A. K. Kerley is superintendent of the local plant, was at Knoxville, Tenn.

## NEW BUNCH OF BABY RACERS WEANED FROM STABLE TODAY

Youngsters at the Oakland Race Course Bid Fair to Develop Into Crackerjacks—Racing Gossip From Far and Near

By LEE DEMIER.

Connaisseurs of thoroughbreds are greatly interested in the crop of two-year-olds which are making their debut to the public at Emeryville this week. They are a really broad band of youngsters, many giving promise of developing into stars of the turf. In the entries for the baby races appear the names of many old-timers about the bay ring, and the collections of the brave deeds of their dams. Indeed, there never has been a more interesting bunch of amateur racers about the bay than will carry colors this spring.

The suspension of Jockey "Buddy" Glass by the stewards for a bad looking ride on Aug. 1st last week has been a severe blow to the boy's parents and to Houseman, the border line Crofton who is still in the lead. Crofton will be represented at the meeting and besides asking a permit will ask that the matter of any other permit be laid over until he returns from his trip across the big drink.

Will Cornthwaite, manager for Joe Willis, has telephoned the Oakland Wheelmen asking how much the local club would give for return match of ten rounds between Joe Willis and Jim Flynn. The club sent back their best offer and are awaiting the final decision.

In all probability the Oakland fans will be treated to a ten round scrap between Jack Burns and Tim O'Neill this month at the Piedmont pavilion. O'Neill has agreed to take him on. Tim claims he will hold his own at catch weights and will have to outweighed only fifteen pounds by the Sultan man.

Owner Barney Schreiber would have given the layers a touch of high life but Phil May made good in the curtain raiser at Jacksonville.

The big stakes that shipped across the pond will be back at the old stand, and that will give the house a tone. Captain's Hall of Spokane, Wash., was a visitor at the track yesterday. He will be the guest of Col. Blubbin while in Oakland.

Canada was the spot for horsemen

and in the Province of Quebec and Ontario there was great activity on the racing anywhere in the country.

Equaling a world's record with 99 dashes broken out of 100 at twenty yards, John W. ## CAN'T STOP ORAL BETTING IN ALLEGED POOL ROOMS

**Police Department and District Attorney's Office Trying to Trap Violators of the Otis Law**

The Otis anti-gambling law is defective, according to Captain of Detectives Petersen, in that it does not provide against oral betting.

"As to there being any poolrooms openly run as such in Oakland, I deny," declared the detective chieftain. "There may be a number of cigar stores, and there probably are, where bets are placed on the ponies, but if any one will tell me how to reach them we will gladly do so."

"In the first place there are only two persons to the transaction and wagers are made orally—in many instances by telephone. No money changes hands and no tickets, cards or other written evidence is handed out."

"We have talked with District Attorney Donahue on the subject of suppressing the placing of bets on the races, but he is as much in the dark as we are on how to reach this form of gambling."

"If we can find any way to reach this system we will only too gladly do it."

**EVERYTHING SATISFACTORY.**

Chief of Police Wilson declared it was the effort of the police department to suppress the selling of pools and bets on the races.

"There is nothing, however, in the law to reach oral betting as is now in effect."

"I would stop it in a minute if we could," said Wilson, "but the chief of police and the educators of the law are not doing enough."

"The District Attorney has an appointment with Chief of Police Wilson this afternoon to discuss the placing of bets on the races."

"I have not heard one word from Mr. Donahue when there was complaint that we were not doing so."

**DONAHUE DENIES IT.**

Emphasizing during that there is no conflict between his office and the police department over the enforcement of the anti-poolroom law, with reference to the closing of poolrooms, District Attorney Petersen said: "This afternoon I have been in touch with the police department to discuss the placing of bets on the races."

"It comes to my attention recently that certain parties are conducting pool rooms in Oakland on the sly and I just the matter up to Chief of Police Wilson with the recommendation that my investigation be investigated and if found

of Oakland."

**TO HOLD CONFERENCE.**

"This is all the conflict there is between the police authorities and my office with reference to these alleged poolrooms. I have discussed all along that such gambling must be suppressed in Oakland and I am satisfied that the police department is in full accord with me on this point."

"I have no objection to the police investigating the placing of bets on the races."

The District Attorney thinks that the law is being generally respected in the county outside of unincorporated boundaries of Oakland.

San Pedro, Los Angeles and Salt Lake Lines May Be Blocked a Month

**SALT LAKE CITY, Jan. 3.—** Railroad traffic is seriously delayed on account of the prevailing storms, owing to washouts in the southern part of Utah and Nevada. It is probable that no through train will be run over the San Pedro, Los Angeles and Salt Lake road within thirty days at least.

The washouts are the most serious in the history of the road. Wood was received today that the last eastbound truck and two bridges over one mile north of the mouth of the South Fork Canyon. The greatest damage appears to be west of Alton, Nevada.

**TRACKS WASHED OUT.**

It will be between that date and Los Angeles one week and the full extent of the damage is not known, but the estimate is that the greater part of track length will be out for a week. General Manager Wood, with a large force of men at Alton, All passenger trains are being transferred at Ogden.

**STABBED IN EYE WITH A PITCHFORK**

**Stooped to Pick Up Hat and Was Accidentally Stabbed by Hostler**

**SAN FRANCISCO, Jan. 3.—** Tim Hardison, a stableman resting at 412½ Mission street, met with a horned hostler at 7 o'clock this morning, when he was stabbed in the right eye with a pitchfork. He will lose the sight of the eye and might have been instantly killed had the sharp steel point penetrated a little further and injured the brain.

Hardison, who is employed in Gallo's stable, 1510 Polson street, was washed when he came to work this morning when he stooped to pick up his hat to make a note that he was washing his coat. He was washing his coat with soap and water when he received the blow in the eye.

He was hurried to the Central Emergency Hospital where Dr. Macmillan found that the eye had been punctured and inflicted instant recovery.

**STRIKE SITUATION QUIET.**

**WASHINGTON, Jan. 3.—** Parties to the strike over the situation of the steel workers in the midwestern railroads agree that no new developments have arisen since last Friday. There was no session of the conference today.

**MONEY-BACK SMITH**  
WASHINGTON STREET, CORNER TENTH**SALT WATER PLANT  
NOW READY TO TEST**

All Difficulties Causing Delay  
Are Said to Have Been  
Overcome

Assistant City Engineer Brown expects that the machinery of the salt water plant will be ready to be turned over for an official test in a day or two. The cause of delay has been due to the failure of certain feed pipes to the engines, which were too small and could not be relied upon. Larger pipes were being substituted today. With the larger pipes no further difficulty is anticipated. The official test will cover several days. Each engine will be subjected to the severest tests singly and afterward worked together. If the tests meet all the requirements of the contracts the plant will be accepted by the city and some day later a public demonstration of the capacity of the plant will be made.

**PIPE LINE IN ORDER.**

The pipe line is in perfect working order. Preliminary tests made on Saturday revealed one or two minor coupling defects, which have since been corrected. The assistant city engineer, under whose personal supervision the pipe line has been laid, says: "Our tests showed that the system will be absolutely successful."

The salt water pumping system covers the business section from Fourteenth street to the water front and between Clay and Franklin streets. The pressure on the plant will be great enough to throw several streams at one time over the Union Savings Bank building, the tallest office structure in the city.

**WILL ASK FOR MONEY.**

City Engineer Turner will ask the Council to appropriate money in the budget this year to extend the system to the water front at the foot of Webster street, where an additional feed pipe can be placed. Then fire tugs will be able to pump water into the pipes from the south end, while the lake pumping station is working at the east end.

The first work on the system cost \$25,000, when an ornamental pumping station house was built on the lake shore and the engines were installed. This year's budget contained an appropriation of \$35,000 with which the distributing pipes and hydrants were planned.

**Dr. Foster Makes Startling Statement in Lecture Last Evening**

Indications Are That He Will Plead Guilty and Seek Clemency

Developments today in the case against A. J. Flood, in which, together with John S. De Lancey, he is accused of forgery in connection with the estate of the late A. L. Poundstone, while acting as clerk in the office of former Public Administrator George Gray, point strongly to the conclusion that when it is called by Judge Brown in the criminal department of the Superior Court, tomorrow morning, he will plead guilty and ask the court to extend to him the privilege of probation.

In this regard, District Attorney Donoghue stated this forenoon that he was not prepared to make public what the attitude of his office will be in the event that Flood does plead guilty and try for probation. He positively asserted, however, that the accused man had received no promise of immunity either from the police authorities or his own office. Further than this the district attorney refused to discuss the case.

**CASES CONTINUED.**

On the motion of Attorney A. L. Frick and with the concurrence of the District Attorney, Judge John C. Quinn adjourned criminal cases still pending against John S. De Lancey this forenoon until one month from today and exonerated the bonds in the cases, amounting to \$70,000 in the aggregate. Judge Smith sentenced to a half a year of imprisonment in the county jail.

**TERROR IN HIS CUPS.**

Omerod, or George Dempsey, as he is known in fighting circles, is a terror when under the influence of liquor.

Two weeks ago he attempted suicide by throwing himself before an electric car. Poison and turning on the gas are other methods he has taken to end his madam career.

Omerod has won some good fights in his time and four or five years ago, when in his prime, considered to be one of the best boys in the ring.

He declared, after serving his sentence from Judge Geary this morning, that he will not do a stroke of work in the cage again and declares he will end his career before his term is up.

Omerod had given the police no end of trouble and a few years ago badly battered Detective Flynn when the latter was placing him under arrest. His wife was arrested with her lord and master for participating in his latest spree, but was permitted to go on probation.

**MRS. RICE'S PROJECT.**

Mrs. Barbara Carnegie Rice is one of the promoters of the project. The inspiration for this plan came from the lips of Little Mary Lou Barnes, a 4-year-old girl who is a resident of the San Francisco Infants' shelter. Little Mary Lou, who had been greatly interested in the boys' outing farm idea, and who had often expressed the wish that she were not that little infant, recently remarked pathetically to Mrs. Rice: "Ain't o dot no place to little girls?"

**RAILROAD CO-OPERATORS.**

Shortly after the Southern Pacific company officials in San Francisco were interviewed and promised co-operation. They agreed to transport the smaller children to this city and other places of San Francisco with their charge and to grant a quarter rate for the older girls.

San Jose society women have promised to help the little girls in getting the right good time and women as far

from Pacific Grove, who have become acquainted with the project, and to make room for the children and welcome them as honored guests.

**Thousands of Coal Miners Out of Work**

LONDON, Jan. 3.—Twenty thousand miners are idle today in the Northumberland coal districts as a consequence of the dispute over the eight-hour day, which became effective January 1st.

Every effort will be made to get the miners back to work, and the well-known German soloist, Albert Engel, will also be heard.

Arrangements for the celebration have been placed in the hands of August Wolfgang, Max Bluhm, and George Krohner.

**Many Injured by Black Hand Outrage**

NEW YORK, Jan. 3.—Several persons were knocked down and shocked today and 150 tenants were much alarmed by an attempt of "black-handers" to blow up a Christian street tenement house. A quantity of dynamite was exploded under the first floor stairway.

Breakfast tables were ripped in the floor, the windows were shattered, the whole building was badly shaken and tenants ran into the street. No one was injured seriously, however.

Threatening letters demanding \$500 had been received recently by a grocery firm which occupied the ground floor.

**VIOLATIONS OF ELECTION LAWS ON THE INCREASE**

NEW YORK, Jan. 3.—Official light was thrown yesterday on the increase in the violations of election laws in New York City by figures for the year, in the report of William Leacy, superintendent of elections.

Thirty-five convictions were obtained in 1909, the largest number in any one year since the offices of superintendent were created. There were 150 arrests and 100 indictments, and 25 cases still await action by the grand jury.

Charges were preferred against 152 election officers and 27 of those officials were removed.

**BROKE SALOON WINDOW BUT ONLY GOT DUMMIES**

SAN ANSELMO, Jan. 3.—Mrs. Anita Kern, wife of Thomas M. Earl of Berkeley, died here yesterday, after a short illness. The husband and a son, Charles K. Earl, survive. The funeral will be held from the late residence, 2823 Bonneville avenue, Berkeley, this afternoon at 2:30 o'clock. The deceased was a native of this state and was a member of a pioneer San Francisco family.
